

Pumps and Pumping Solution

Reliable pumping systems are essential for water intake, transfer, collection, circulation, distribution, irrigation and clean-in-place applications. Water Bird supplies packaged pumping solutions for seawater intake, sewage lifting, stormwater transfer, plumbing systems, booster systems, circulation systems, treated water distribution, irrigation and CIP applications.

Water Collection & Transportation Pumping Solutions

Used to move water, seawater, sewage, stormwater and treated water from one location to another safely and efficiently

We Offer:

- ◆ Submersible Pump Packages
- ◆ Vertical Turbine Pump Systems
- ◆ Self-Priming Vertical Inline Pumps
- ◆ Seawater Intake Pumping Systems
- ◆ Sewage & Stormwater Lifting Stations

Water Distribution & Plumbing Pump Set Solutions

Maintains reliable pressure and moves water across buildings, facilities, and infrastructure networks.

We Offer:

- ◆ Plumbing Pump Skid Systems
- ◆ Booster Pump Sets
- ◆ Constant Pressure Booster Sets
- ◆ Transfer Pump Sets
- ◆ Sump Pump & Sewage Transfer
- ◆ Circulation Pump Sets

36+ Years of Experience

Dubai Municipality Accredited Lab

ISO Certified

Large-Scale Water Delivery & Distribution Solutions

Supports high-capacity transfer, treated water distribution, and irrigation networks for infrastructure and utility projects.

We Offer:

- 💧 Treated Water Distribution Packages (Variable Speed Control)
- 💧 Irrigation Pump Skids

Irrigation Pump Skids

CIP Pump Sets for Industrial Applications

CIP Clean-in-Place Pump Solutions

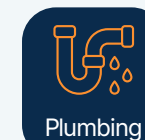

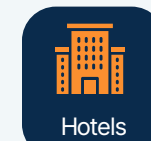

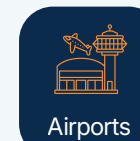

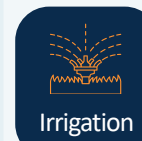

Circulates cleaning solutions through equipment, pipelines, and membranes without dismantling systems.

We Offer:

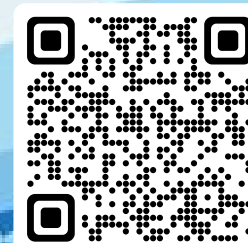

- 💧 CIP Pump Sets for Water Treatment
- 💧 CIP Pump Sets for Industrial Applications
- 💧 CIP Pump Sets for Process Applications
